

Ganpati Bappa Morya

Wishing you and your family a year of good
beginnings.

A small gift from Manoj

Ganpati Bappa Morya!

Thank you for joining the celebration tonight.

We remember Ganpati, the remover of obstacles, at every new start. This year my new start is BioQuant IQ, and I wanted to share it with the people I learned the most from.

We build two things. Arena helps a leadership team turn a stuck problem into a decision they own. Echo lets a person practise the moments that matter in their own work week, and see their progress.

My gift to your family is one month of Echo. It is for you, or for a student or young professional at home. Use it to prepare for an interview, a case study, a new function or the people side of work.

With warm wishes,

Manoj Kumar Mandelia

CEO · BioQuant IQ GmbH

YOUR GIFT

One month of Echo

For you, or for the student or young professional in your family.

1 Request your Echo

Open [the request form](#). Say what you are preparing for, and write 'Ganpati gift' under Remarks. Students can put their university under Company.

2 Play it

Your personal Echo arrives by email. One situation takes about 15 to 20 minutes and ends with a score and one next step.

3 Open your month

Reply to that email with your use case: an interview, a case study, functional skills, soft skills or your current job.

Request by Saturday 31 October 2026.

Need another month, or one for someone else in the family? Just ask.

PEOPLE DEVELOPMENT, MEASURED

Echo turns the moments that matter in your work into practice. Every run is scored, so you can see what improved.

- **See your own work week**

Every situation is built from your real role, company and pressures, or from the role you are preparing for.

- **Grow soft, hard and AI skills**

Three modules: Echo Soft for people skills, Echo Hard for functional skills, and Echo AI and Digital for working with AI.

- **Score your progress**

Every run is scored against your own starting point, never against colleagues.

- **From learning to impact**

You see which skills moved, so learning becomes an investment, not a cost.

- **An exciting way to stay updated**

Fresh situations keep pace with your field.

For professionals, young professionals and students: job interviews, case studies, functional skills and soft skills.

A Arena

TEAM PROBLEM-SOLVING, ENGINEERED

Most problem-solving sessions produce ideas.
Arena helps a team leave with a decision.

- A 2-day decision sprint on your team's real, stuck problem.
- Options priced live against your own P&L.
- Owners, KPIs and a 90-day rhythm to carry it through.

For leadership teams, offsites and annual plans.

arena.bioquantiq.ch

Curious about either? Ask me tonight.
